## **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

### ***Reasons for allowance***

1. The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or reasonably suggest a method of making a low-loss electromagnetic wave resonator structure, a low-loss acoustic wave resonator structure and a low-loss electronic wave resonator structure comprising a step of specifically configuring the resonator structure to reduce or eliminate radiation loss or to increase radiation loss from the resonant mode into at least one of the radiation channels, while keeping the characteristics of the near-field pattern substantially unchanged as recited in independent claims 1, 19, 21-23 and 25.

The examiner agrees with applicants' arguments on pages 9-13 in the remarks filed on June 14, 2004, and fully concurs that McLafferty, Stewart and Villeneuve references do not disclose or suggest the limitations above.

Claims 1-26 are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
